

Company Censured

Motor Car and Rails Were too Far Apart

(Bulletin Special)
Winnipeg, Sept. 26.—The coroner's inquest on the death of the street car conductor killed yesterday found that James Walters came to his death while in the discharge of his duty, that the cause of the accident was the fact that the distance between the motor car and the trailer was so great that it was impossible for a conductor to make the passage without endangering his life, and censured the street railway company for not providing a safe and better way for their employees to pass from car to car in the discharge of their duty and recommended that the city council take immediate action to compel the company to provide a safer manner of communication between such cars, and that they would also recommend that conductors be placed on each car.

EDMONTON AFTER STANLEY CUP.
(Toronto News)

Mr. Alfred Kemp, the manager of the Edmonton hockey team, who is in the city for a few days remarked yesterday that Edmonton is going to send a team east after the Stanley Cup this winter, and it will be the best that ever came out of the west.
Jack Winchester, a former Belleville goal-tender, will guard the nets for the western team, while Mr. Kemp expects to land Fred Whitcroft, the crack Peterboro forward, and take him back next week. He has also lined out for another star forward, who is at present residing in this city.

Engineer Killed

Earned Under His Wrecked Engine Near McLeod

(Bulletin Special)
McLeod Alta., Sept. 26.—Engineer Fairlie was instantly killed in a freight wreck three miles from here at a late hour last night. He was pulling a heavy train and on a long down grade it gathered considerable momentum, dashing into an open switch at the junction. Fairlie was caught under the overturned locomotive and instantly killed. The other members of the crew escaped injury by jumping.

News was received by long distance telephone from Innisfail this morning of the death last night of Alex. Currie, brother of S. J. Currie, of this city. The message conveyed only the intelligence that Mr. Currie had dropped dead, presumably from heart failure.

Hochelaga Bank

G. A. Geroux, of Montreal, in City to Arrange for Branch Here

Mr. G. A. Geroux, manager of the Montreal branch of the bank of Hochelaga, is in the city today completing arrangements for the opening of a branch of the company's bank in Edmonton.

The Credit Foncier is under contract with the Bank of Hochelaga to furnish them premises in their new building at the corner of Jasper and Fourth. Mr. Geroux stated today that they would be doing business in the new building not later than January 1st. They are choosing the west end site in the belief that Edmonton is going to grow and that while they are at present close to the western limit of the business section it will not be long before the business part of the town has stretched far beyond their present location.

Mr. Geroux says that the Bank of Hochelaga is going to open up many western branches, of which the Edmonton branch is only the first. He is sure that a branch will be opened in Calgary and another one in Vancouver and he is looking forward to the establishment of branches in Saskatoon and Prince Albert and possibly one in Regina. Mr. Geroux will remain in the city until Friday when he leaves for the Pacific Coast, stopping long enough enroute to enjoy the scenic grandeur of the Rocky Mountains. He is registered at the Alberca.

Downs Pupils Do Well

Sutton and Blatchford, Two Locals, Win Over Watson and Berg

The wrestling game is becoming popular in Edmonton, and a large crowd turned up at the Thistle rink last night to see Sutton and Blatchford, two home brews, take the winning falls from Watson and Berg, men who are experienced semi-professionals.

Downs himself took on Jensen, of Cardston, who is a very fair wrestler, but scarcely in Downs' class.

The first bout between Charlie Sutton and Watty Watson was a debut for the former who had never been on the mat in public before. He has been a pupil of Downs' for about ten days and is a comer. The bout opened with both men doing beautiful pretzel work and looking for openings. Watson finally rushed his man off the mat, getting a body hold just as they left the canvas and brought him back for a fall. Time eight minutes.

In the next Sutton went right after Watson and rushed matters from the start. After some very nice defence work, Watson was caught trying to get out of a double Nelson and was forced to the mat on the spin.

The next bout was even faster, for Watson had to pull out or lose the match. After some last work on both sides, during which Watson claimed a fall which was not allowed, Sutton caught him again with a full Nelson. This gave Sutton the match. Time six and a half minutes.

The second match between Kenny Blatchford and Young Berg was the best of the evening. Berg is lightning fast while Blatchford is not only fast but very strong. He is another pupil of Downs' and is a comer. The first fall went to Berg in twenty-three minutes on an arm lock and scissors hold. The second period however saw Blatchford the aggressor and time and again Berg got away only by lightning work. He was finally caught on a leg hold and bar lock and had to go to the mat or have his foot broken. Time seven and a half minutes.

This hold, which is a very clever one and a hard one to get on such an experienced wrestler as Berg, proved so effective that Kenny went after it again. He got it the second time in five and a half minutes and ended the match in his favor by forcing the Swede slowly to the mat.

Gus Collis, of Idaho, was then introduced by Berg, with a challenge to wrestle anyone in town for \$50 or \$100 on the side.

The concluding bout was an exhibition one between Downs and Jensen. The latter showed himself to be aggressive and clever, but scarcely heavy enough for Downs. The wrestling was lightning fast and Downs took the falls in twenty-two and twelve and a half minutes respectively.

Another Post-Office

Messrs. Smith & Driscoll Asked to Submit Offer for Lease of New Building at Corner Rice and McDougall

Messrs. A. Driscoll and S. H. Smith took out a permit in the building inspector's office yesterday for a \$10,000 building to be erected at the corner of Rice and McDougall streets. Nothing definite as to the purpose has been given out, but it is reported that the building is to be used for a temporary post office, to be used instead of the McLeod building to the north of the corner, which has already been found too small. The owners have been asked to submit an offer at which they will lease the building which they intend to build to the post office department. The offer was submitted by wire yesterday but up to the present no reply has been received from the department. It is expected that an answer will be received this afternoon or tomorrow.

The plans filed in the building inspector's office call for a building 50 x 80 feet, the first floor being full sized with a double corner entrance and side entrances on both McDougall and Rice. The second floor is divided into offices, with a stairway leading from the corner entrance. The building is to be equipped with steam heat and modern plumbing throughout.

Late Despatches

JUSTICE DUFF ELEVATED.
(Bulletin Special).

Ottawa, Sept. 25.—At the cabinet meeting this afternoon an order in council was passed appointing Justice Duff of the Supreme Court of British Columbia to the Supreme Court of Canada in place of the late Justice Selwidge. Justice Duff was one of the counsel for Canada before the Alaska Boundary commission. He will be the first judge from British Columbia to have a seat on the Supreme Court bench and the second from west of Lake Superior. No action will be taken in the vacancy in the Supreme Court of British Columbia until Hon. Wm. Tompkinson returns from the west. An order in council was passed today approving the contract with Capt. Worsnop and some English capitalists for a steamship line on the Pacific between Canada and Mexico. The contract is for two years.

WILL INSURE GOODS.
(Bulletin Special).

Winnipeg, Sept. 26.—Insurance against fire losses the result of causes for which the carriers are responsible has not in the past been included in railway contracts or bills of lading by any common carrier in America or Europe. A great deal of litigation has resulted but the Supreme Courts have always maintained that the carrying companies had no insurable interest beyond their charges in the goods transported on their respective lines. The C. P. R. have perfected arrangements covering all risks of damage by fire or consignments travelling on their rail lines and are the first to open a company in the world to assure this risk which has hitherto been a prolific source of litigation and loss.

Signs Come Down

Council Decides That No Partiality Shall Be Displayed Towards Electric Signs.

At the city council last night it was decided by the votes of the aldermen that all overhanging and projecting signs, electric or otherwise, must come down forthwith and that no more shall go up.

The overhanging sign question has been before the council for the past three weeks and while it had already been decided that the non-electric sign was doomed there was some hesitation on the part of the aldermen about ordering down the overhanging electric sign. A committee which was appointed to inquire into the procedure in other towns reported that the overhanging sign were favorably regarded in other towns, but the report was merely laid on the table. At last night's council meeting a petition or protest against overhanging electric signs, as well as all other overhanging signs was presented to the council. It urged that all overhanging signs be ordered down, and was signed by over 75 per cent. of the business men on the principle streets of the city.

The council accepted the protest as an expression of opinion from the business men of the city and passed a motion ordering all overhanging signs removed. A proposition by Alderman Picard to allow a projection of a foot was not considered by the other aldermen.

30-year Franchise

Strathcona Radial Tramway Co. Submit Proposition to Council

F. C. Jamison of the local firm of Rutherford and Jamison of Strathcona appeared before the city council last night as solicitor for the Strathcona Radial Tramway Company to present a proposition for a tramway connecting Edmonton and Strathcona. The matter was turned over without debate to a committee consisting of Aldermen Griesbach, Manson and Smith with instructions to meet the Radial people and discuss the question and report to the council. Monday next was set as the date.

Mr. Jamison stated that the company was ready to put up a reasonable guarantee in cash as a forfeit failing construction.

The following is the proposition submitted to the council.

1. We desire an exclusive franchise, the city to have the right to purchase at the end of 30 years and thereafter at the end of each term of 5 years on 2 years' notice.
2. Exemption from taxation for 15 years from the commencement of construction, and thereafter exemption for the company's rails, ties and the company's share of planking and paving.
3. For the first ten years the town to receive no share of the earnings; for the next 10 years 5 per cent of the net profits and thereafter 5 per cent of the gross earnings up to \$500,000 and 8 per cent on excess. (Profits and earnings to mean profits and earnings in Edmonton) the town to have the right to appoint an auditor.
4. The company to keep in order its share of its roadway and pavement.
5. Cars from 6 a.m. to 11 p.m. compulsory; no night cars to be compulsory until the population of Edmonton and Strathcona is 100,000. If night cars are operated, double fare to be charged.
6. No Sunday cars until a vote in favor, by the majority of ratepayers of Edmonton and Strathcona.
7. Construction to commence not later than August 1st, 1907, and the line in Edmonton to be in operation by November 1st, 1908.
8. The line in Edmonton to be from the present bridge to the corner of McDougall street and Jasper Avenue, with one branch to the west and one to the north extending in each case to the city limits. Extensions on either streets as population warrants, on demand of City Engineer.
9. Cars to be of proper construction; motive power, electricity; system on application to be changed after ten years on demand of town on 2 years' notice, if another system be recognized as an improvement.
10. Single or double-track-standard gauge.
11. Fares to be 5c with classes on tickets at cheaper rates to be agreed upon; one fare only good for the limits of Edmonton; passengers from Edmonton or Strathcona or vice versa to pay second fare on crossing the river; conductors change at bridge or bridges.
12. The town to approve of the company's obtaining running rights on present bridge and the proposed C.P. R. bridge.
- 13.—This proposal is subject to our obtaining a workable agreement with the town of Strathcona.

Of course many matters not mentioned above would be required to be settled in a definite agreement. We would be prepared to discuss if necessary reasonable modifications of these terms.

Militia Holding Armed Negroes In Check.—257 Arrested In One Village.

(Bulletin Special).

Atlanta, Ga., Sept. 26.—One negro was killed in Brownville, a suburb, by the militia army, while trying to break through the lines. Two hundred and fifty-seven negroes have already been arrested in Brownville. The majority of them were heavily armed. One other negro tried to get away and was shot. The raid started shortly after 5 o'clock. Negroes were searched for arms, and every one armed was placed upon the cars to be sent to the police barracks. One of the first arrested was L. J. Price, the negro postmaster, who is charged with supplying ammunition to the blacks. Negroes who tried to break through the lines were fired on, halting promptly. Capt. Wilson had a conference with the President of Gannon Seminary on the situation. The negroes are held in by the militia. Members of the Governor's Horse Guards and Mounted County Policemen are anxious to avenge the death of Officer Heard, and the wounding of other members of the force. The negroes are badly frightened.

Washington, D.C., Sept. 25.—At a meeting last night of the National Negro Baptist Preachers' Union of Washington and vicinity, resolutions were adopted condemning mob violence by whites on innocent negroes and the assault on white women by negroes, "The dual crimes in Atlanta which disgrace our Christian nation" and calling upon all negroes in this vicinity to assemble in their churches on Sunday, October 7th, and offer prayer for a peaceful solution of the race problem.

Member for North Toronto Defies Royal Commission Probing the Doings of the Great West Company.

(Bulletin Special)

Toronto, Ont., Sept. 25.—Geo. E. Foster, former Minister of Finance in the Dominion Cabinet, and member for North Toronto in the Dominion House, threw a flat and well considered defiance at the Insurance Commission this morning. He was asked tentatively by G. F. Shepley as he sat at a table in court, whether he had intended to consider the requisition put yesterday to produce the stock book of the Great West Land Company. His reply was inaudible. Thereupon Mr. Shepley asked Mr. Foster to take the stand. When he had done so Mr. Foster was asked "You still decline to produce the stock book?" "Yes," was the reply. Then began a long talk between Mr. Shepley on the one hand and Mr. Foster on the other hand. Mr. Shepley said that if a witness on his own judgment alone could decide to withhold documents that the powers of a royal commission were curtailed, and the statute framed to force obedience might be as well thrown in the waste basket.

A STRAYED FICTIONIST

One surely has to go abroad to get news of home, as the following letter sent supposedly by an Englishman to the London Daily Mirror, will attest. That the author is an improved edition of Baron Munchausen goes without saying and, like his great prototype, he over-steps the mark so far as to divest his production of all semblance to truth and hence all power for harm, and to invest it with the crowning charm of absurdity as unsuspected by the author as apparent to every one else. Such being the case Canadian readers should not be denied the privilege of reading what might have been.

The only wonderment is how the author ever strayed from his predestined ways into the less alluring pathway of the pastoral life. Providence clearly intended him for a high financier or a weather prophet. The communication is under the heading of "Terrors of Farm Life in Canada."

"I can now definitely say that I have done with farming. I have considered every hole and corner of it, and can now see clearly that I shall greatly gain by remaining in town."

"I could tell you hundreds of instances of the uncertain life that it is on a farm in Canada that you would not credit unless you experienced them for yourself. I can speak from experience, for I have worked in the country in Canada now for eighteen months, and have seen and have met other fellows who have seen, the most disgraceful methods of living, particularly in the preparation of food."

"When I came to Canada in 1905, I first worked for a Yankee. I arrived late in the afternoon, and, as I had had no dinner, naturally felt very hungry. They laid the dinner for me, and put on the table among other food, some meat, which was in small squares about one inch thick."

"After the meal I had the impudence to inquire whether it was dried beef. They said it was not, but to my surprise, made me wise to the fact that I had been eating dried American horse flesh."

"While working for a farmer at Coalsprings, I ate what I afterwards found to be veal of a calf that had been drowned. That was nothing exceptionally out of the way to the high class Canadians."

"While at Oak Point one day I had set before me some meat which did not have a very tempting odor. Everyone ate it but me. After the meal was over a young farmer informed me that the meat was the flesh of a horse that had died from glanders. At no place out here will they waste an animal that dies."

"A few dishes which everyone who can get them use, are baked frogs' legs and batter, roast skunk, and a great delicacy is muskrat baked with their toes on."

"Of course, in places nearer towns they have the advantage of eating meat which looks a trifle better, but it is just the same, only people do not know it. Cowhides soup is also common in the country."

"As to the living system, it is equally desirable. It is generally customary for people in a new settlement, to have their houses built in two rooms, one up and one down the ladder. The up-ladder room is the bedroom and the other the living room."

"Above, everybody sleeps; that is, the whole family, hired men and visitors. If there are any. Generally the straw ticks are upon the floor, forming a first class hunting ground for vermin."

"Of course there is no convenience for a bath, and as country folk never go to town, a bath or wash once a year is plenty. Besides these discomforts, the work is altogether unpalatable. I tell you, although you have to scramble out of little scraps financially sometimes, England's town life on \$1 a week is just heaven compared to country life in Canada."

THE PRESIDENTIAL CAMPAIGN

The Presidential campaign is essentially the big feature of American politics. The President is both the head and representative of his party and centre of the executive power nation. As the leader of his party is understood as originating and shaping much of the policy passed by Congress, of executive of the nation, and controls the

by which the legislation is carried into effect. In his legislative capacity his position resembles fairly closely that of the Premier in Canada but we have no official wielding as wide executive power. To Canadians this power is probably best described as including that of the Governor-General, the Premier and the entire cabinet. In the American system there is no officer corresponding to our Premier and the secretaries in charge of departments are not elected, and do not occupy seats either in the Senate or the House of Representatives. They are appointed by the President and are answerable to him.

The importance which attaches to the position sharpens the contest for it, while the electoral system in force tends to lengthen the struggle, and permits it being planned earlier and carried on in a more comprehensive manner than is known in Canada. In the United States the dates of elections are fixed by statute and each party knowing years in advance exactly when the popular verdict will be taken, lays its plans early and develops them more elaborately and systematically than is possible in a country where the date of election is a matter of uncertainty until within a few weeks of polling day. As a result a presidential election is scarcely over until the parties are seeking candidates and selecting issues for the fight four years later.

Although the next presidential election does not take place until 1908 the campaign may be considered to have already begun. In a sense it may be said to have begun two years ago when on the evening of one of the most phenomenal triumphs in his history of the country President Roosevelt announced that he would not accept another nomination. The result was early observable in the Democratic camp. Republicanism they calculated had surely reached its zenith and with its overwhelmingly popular leader removed might well reach the horizon in four years. Aside from spasmodic signs of resuscitation, however, there was little doing until the present summer when the party appears to have suddenly concluded that whatever hopes it had of winning were centered in Mr. Bryan. Whether this re-awakening was arranged by the party managers or not the fact remains that Mr. Bryan's return from Europe was about as nearly a "triumphal march" as could well occur in the case of the leader of a vanquished party returning by sea. That there will be discordant notes in the national convention next year is probable; that there is a widespread public suspicion of the "silver" theories of Mr. Bryan is certain; but it is also certain that the Democratic party as a party has turned to him with something of the appearance of a leaderless flock and that no man stands so high in the general opinion of that party today.

On the other side no indication has been made of the probable standard bearer of the Republicans. No sign has been made by the President that he will or may reconsider his decision of two years ago and again become a candidate. Should he do so he would doubtless win but it could scarcely be possible that his victory would be more signal than his last and from the purely personal standpoint it will probably appear better to him to retire with his prestige untouched than run the danger of further encounters. The President, however, has not been particularly careful of his prestige when the care of this conflicted with his sense of duty and should his work be incomplete or should the unsolved problems seem a call to continued service he may again be found in the thick of the fray. Should he decide to do so there is no law against it and even the custom which limits presidents to two successive terms does not debar him as his first three years were spent fulfilling the unexpired term of his lamented predecessor. Certain it is that from many Republican sources come evidences of a general belief that he will again lead the party to victory in the next campaign.

G. T. P. Officials Promise to Bear Transfer Charges over High Level Bridge and Strathcona have same Tariff as Edmonton

Strathcona, Sept. 25.—The recent momentous discussion and agitations in regard to the proposed route of the Grand Trunk-Pacific is still fresh in the minds of Strathcona citizens. The visit of Messrs. Hays and Morse, of the Grand Trunk Pacific, the other day in Strathcona, will therefore be gratifying news when the following result of an interview between these gentlemen and Mayor Sheppard of Strathcona, appeared in the issue of the "Plainsdealer" this evening, and caused much speculation and comment in business circles:

"Mayor Sheppard, of Strathcona, had a brief interview with Messrs. Hays and Morse, of the Grand Trunk Pacific while they were here for a few minutes on Friday last.

"Mayor Sheppard asked them what their plans were for serving Strathcona when their line was built in this region. They replied that, in the first place they hoped to gain a share of Strathcona's business by bearing the transfer charges of the C. P. R. over the high level bridge, when built, and later, when their main line is completed, and they can turn their attention to the building of branches, they will build a branch into Strathcona.

"Mayor Sheppard expressed the belief that such arrangements would not be very satisfactory to Strathcona shipmen, and that the G. T. P. could not expect to get business from this town which could be placed with any other company.

"Mr. Morse justified the course of the G. T. P. in choosing the Clover Bar crossing, asserting that he had not broken faith with Strathcona, contending that he had never led the people to suppose that their main line would go through this town."

"In commenting upon the interview, the Plainsdealer adds:

"At this early date it is difficult to realize how much the proposition of Messrs. Hays and Morse will mean to Strathcona, but it looks good to us. If they are prepared to pay all C. P. R. transfer charges between Strathcona and Edmonton on incoming and outgoing freight, whether through or local along their lines, it means that Strathcona will receive the full benefit of the Grand Trunk Pacific as far as freight

hauling and distributing is concerned without the inconvenience of extra tracks and smoke and noise. Next to being in the main line, what these gentlemen propose is the best thing, and their assurance should strengthen Strathcona's position as a wholesale and manufacturing centre."

It is therefore obvious that Strathcona, although not on the main line of the G. T. P. will have facilities equal in every respect to those of Edmonton.

The proposition of President Hays and General Manager Morse to serve Strathcona by paying C. P. R. transfer charges over the C. P. R. high bridge when built, and thus giving Strathcona same rates as Edmonton, has been received with gratification here.

Strathcona

Strathcona, Sept. 25.—By-law No. 165 relating to projecting signboards came into force today. A marked improvement is noticeable on Whyte avenue especially and merchants are to be complimented on the prompt acquiescence to the law of the town council.

Miss Henderson, who recently returned from the millinery opening in Toronto, opened her millinery season today, (Wednesday)

This afternoon a young lad, the son of a well-known business man, was severely bitten by a dog. Several complaints have been lodged regarding the number of vicious canines which prawn round Strathcona and prosecutions are, we believe to follow.

The Strathcona football club are training hard this week in view of their game with Edmonton at the fair here next Tuesday.

Mr. T. M. A. Whitehorn, who was on the staff of the City Transfer Co., leaves this week for Montana.

A new store is being erected by Mr. R. Ritchie on Whyte avenue, opposite the Plainsdealer office. The building will have a frontage of forty-three feet and accommodation for two stores.

Commissioner R. Palma has several men engaged constructing a new road from Ritchie's hill to the coal shed at the power house.

Mr. W. M. Hill will act as manager of the Brackman-Ker Co., during T. W. Lines trip to Europe.

A very large potato weighing 41-2 lbs was taken from Mr. Fred Garbe's garden this week.

Messrs. G. L. Porte and Thos. Daly left yesterday afternoon for New Westminster to put the Strathcona and Edmonton exhibits in order for the fair opens next week. Master Reggie Porte also went with them.

Mr. W. Young and family arrived here from Montreal this week.

Premier A. C. Rutherford has purchased the half section farm of Wm. Basendall, through T. G. Tipton & Son, real estate company. The farm which lies about six miles east of Strathcona, has over two hundred acres under cultivation, and is regarded as one of the best in the country.

Councillor J. J. McKenzie had a very narrow escape from serious injury the other day. While driving on the bridge road he met an automobile, and his horse taking fright, capsize the buggy and Mr. McKenzie was thrown out. He was badly bruised about the head and arms, but fortunately escaped serious injury.

Mr. George Armitage is spending a vacation at Agricola, while his restaurant, The Star Restaurant is being repaired and renovated after the recent fire.

Six young ladies and gentlemen of the Moravian congregation on the reserve south of Strathcona have left for the east to take college courses.

Misses Katherine Stolz and Emma Henkelman go to the Missionary Institute, Brooklyn, New York, to prepare for foreign missionary work.

Messrs. R. Riener, Albert Harks, and Ernest and Ferdinand Dribert have gone to Bethlehem, Penn., to enter upon theological courses in the Maravian Seminary. During the past two years they have been preparing for their college courses under the tuition of Rev. Mr. Hayler and Mr. W. E. Bartlett of Colchester.

The Strathcona lacrosse club left this morning (Wednesday) via C.P.R. in their tour to the coast. Master Jimmy Sutherland accompanied them as mascot.

SUSPECT ARRESTED

Kinistino, Sask., Sept. 24.—A young man named Hickman, who came out recently from England and took a position as junior clerk in the Bank of Commerce here, is suspected to be the perpetrator of the robbery of that institution, which took place on the night of September 19th. He was arrested and brought before Magistrate Devine for preliminary hearing today. He pleaded not guilty, and the case is proceeding.

Lavoy Items

Sixteen Hundred Bushels of Oats
Threshed From Twelve Acres

Lavoy, Alta., Sept. 24.—A farming district that can produce sixteen hundred bushels of oats from twelve acres must be all right. Practically 135 bushels to the acre; that is the record furnished by Mr. McNutt of Lavoy and it is one that's hard to beat. It certainly shows that Lavoy has as good land as the best and shows why a great many settlers and business men are settling in this town and have great faith in its future. They consider that with railway communication, good lands and a good class of settlers coming in there is no reason why Lavoy should not become a town of prominence and a commercial centre for the farming district of St. Paul's Crossing, White Fish Lake, Saddle Lake, and St. Paul de Metis together with the un-named farming districts opening up to the north and the south. A government road is to be built due north to St. Paul de Metis, taking in the Pomeroyville and other settlements. Lavoy has a daily mail service.

One convenience badly needed is an agent at the C.N.R. depot. The C.N.R. has built a good depot and why the people are not provided with an agent is more than they can understand. The business of the place certainly demands one as there is now a great deal of both passenger and freight traffic.

There is good hotel accommodation provided at the Palmer House owned and conducted by E. Cyre.

The principal business firms are: A. Gourley, manufacturer and dealer in harness and saddlery; W. J. Sanford, general merchant; H. B. Hughes, general merchant; Bond Bros., lumber and implement dealers; Lavoy Trading Co., general merchants; A. G. Veldar, real estate; Stonehacker Bros., real estate.

Mrs. Helu of Edmonton is building a two storey brick business block which will be occupied by the Lavoy Trading Co.

A firm that will be of great benefit is the Lavoy Milling Co. They are commencing operations and will soon be buying grain and dealing in hogs, etc. At present their milling operations will be confined to the grinding of oats and barley and the sawing of lumber, but they anticipate putting in a flour mill before long. W. C. Burgess and A. G. Viets are the proprietors.

Another industry that will be in operation by next spring is a brick and cement block plant under the presidency of H. B. Hughes and secretaryship of Wm. Res. It should be a success.

A creamery will be in operation next spring. It is being built by E. Ingham formerly of Lacombe.

With a good community around a bustling, wide awake lot of business men, good water supply and fine location all around, there is good reason to believe that the future of Lavoy is assured.

COMING TO EDMONTON

Moncton, N.B., Transcript: There was a very pleasant function held at the Royal Hotel here last evening, when the leading citizens and many personal friends gathered to pay a tribute to Mr. H. H. Parlee, a barrister and county councillor, who leaves on Monday for

his future home in Edmonton, Alberta. The guests numbered nearly three score, and sat down to an excellent repast. Mr. G. W. Fowler, M.P., presided, having at his right the guest of the evening, Mr. H. H. Parlee, and at his left, Mr. J. T. Hawke, of Moncton.

After the repast, Mr. Fowler, in excellent and well presented remarks, paid high praises to Mr. H. H. Parlee, junior member of the firm of Fowler, Jones and Parlee. He spoke of having watched his career from a boy at school to that of law student in his own office, and then as partner. His progress had been rapid and earned by indefatigable industry. As law partners their relations had ever been pleasant, and the firm with regret learned of his intended departure for a new and larger field. The presence of so many of the leading business men of Sussex three last evening, testified that the esteem for Mr. Parlee and the regret at his departure, was restricted to no limited circle. It was general. He was a young man of great promise; and as all knew, he would have made his mark in this province had he remained, they all felt, he certainly would succeed where he was going. After a few additional remarks in a similarly complimentary strain, on behalf of the friends of Mr. Parlee, he presented him with a tangible token of their friendship and esteem.

The presentation was a beautiful gold Albert with locket attached, all of dead gold and selected with exquisite taste.

Mr. H. H. Parlee, who, on rising to respond, was greeted with enthusiastic applause, briefly thanked his friends for the presentation and said he should ever wear it in remembrance of the many warm friends he had made in the town where he had spent his boyhood and early manhood. Proceeding he incidentally remarked that his personal relations with his business colleagues had been of an unbroken character in their pleasantness. Continuing, he remarked that though he was leaving for a larger field, yet he had not in his trip, seen any place, which in general respects considering its population, could compare with Sussex. He had made many friends here; and they had stood by him well, and he appreciated their friendship very much. He left Sussex with regret, but the necessities of a larger sphere of occupation were not to be set aside; and he would ever hold the town and county in the most cherished remembrance.

Mr. Parlee will join the firm of Taylor & Boyle, barristers, Edmonton.

C. N. R. STARTS NEW LINE

Reaithen, Sask., Sept. 21.—The Canadian Northern commenced last week building a branch line between Dalmaney on the main line to Carlton, a distance of about forty-five miles. Work was started at Dalmaney by two hundred men and a hundred teams. The line is to be completed and steel laid to Stony Hill this fall, so that wheat may be hauled out.

CANADA MAY BE REPRESENTED

Ottawa, Sept. 25.—There is a probability that at next session of Parliament an arrangement will be made for the appointment of a Canadian attaché to the British embassy at Washington. President Roosevelt threw out the idea at a very opportune moment, and the matter is favorably viewed in certain official quarters here. The press appears to be almost unanimously in favor of the proposition. It is learned on good authority that the British Government would not object to a Canadian representative at Washington.

JAPAN-CHILI TRADE TREATY

(Bulletin Special)
Ottawa, Sept. 24.—Canada's trade agent at Yokohama writes to the department that there are reports in well informed circles that a treaty of commerce will shortly be ratified between Japan and Chili and that the Japanese government is taking steps to conclude commercial treaties with all the South American countries. With the exception of the treaty of flour sent from Alberta, Mr. MacLean says that Australian wheat can be sold in Japan cheaper than Canadian. MacLean says that all goods not accompanied by certificates of origin, upon the invoices, will be liable to the general or maximum tariff.

RIFLEMEN ARRIVE

(Bulletin Special)
New York, Sept. 24.—Among the passengers who arrived today on board the steamer Minnetonka from London, was the rifle team of the Queen's Westminster Volunteers, who will compete for the shields offered by Sir Howard Vincent. The steamer was flying the flag of the Volunteers.

MORE HOPEFUL

(Bulletin Special)
Washington, Sept. 24.—Official news with regard to the situation in Cuba was lacking in Washington this morning. The Pacific tone of dispatches from Havana yesterday had a favorable effect upon military and naval officials. The prospects of an adjustment of the issues between the Panama Government and the insurgents, however, does not defer the officials here from keeping up preparations which have been making to land forces in Cuba if necessary.

FIVE APPEALS

(Bulletin Special)
Ottawa, Ont., Sept. 24.—Five election appeals have been inscribed at the Supreme Court. The first on the list is St. Anne's election, G. V. Darlington. Then follows Halifax election, appeals being Hetherington V. Roche, Hetherington V. Carney and Roche V. Jordan. There is also the Shelburne and Queens election appeals being Cowie V. Fielding. The record in the Fielding case has been returned for some formal matter which has not been carried out in the record. It is expected to be returned in time for the opening of the court on the second.

Wardens of the different penitentiaries of the Dominion are here meeting and talking over their duties. They have a meeting of this kind every two years.

WHEAT COUNTRY ALONG THE MACKENZIE

Mr. E. Stuart, superintendent of for-

estry, has reached Dawson after a seven-day journey from Edmonton on the overland route. He travelled from Edmonton, down the Mackenzie River on Hudson's Bay boats to Fort McPherson, from whence he portaged to the cupline river, on which he went by canoe to Fort Yukon. There he took steamer for Dawson. He will go to Vancouver early in September and proceed east. He reports that the country along the Mackenzie river is so fertile that it may yet be included in the wheat belt. Mr. Stewart's trip is for the purpose of examining the forests in the northern parts.

DENOUNCED GOMPERES

Chicago, Sept. 24.—Industrial Workers of the World, representing radical labor organization, today denounced President Gomperes, of the A.F.L., and John Mitchell, president of the miners unions, as reactionaries, declared themselves against Gomperes' political propaganda to defeat congressmen not allied with labor fight. They say if Gomperes wants their support, he must go to them, to adopt their ideas.

WINNIPEG BUILDING RETURNS

Winnipeg, Sept. 24.—It is probable that the end of September will see the building totals for the months of 1906, equal to the total for the whole of 1905. This year's total is \$10,500,000, while 1905 total, including all the months of the year, was only \$400,000 in advance of that amount.

KILLED IN A FIGHT

Buffalo, N.Y., Sept. 24.—Following a prize fight in the Danish Hall, Woodlawn Beach, Richard Munson, twenty years of age, one of the contestants, died early today. Injuries to the brain resulting from a blow behind the ear, are said to have caused the young man's death. Walter Robinson, colored, 26 years of age, Munson's opponent, was arrested and committed to jail. The charge against him was left open, but it probably will be murder.

BONDS FOUND

Chicago, Sept. 24.—Assets of \$23,000 in bonds were found in the vault, in the Milwaukee State Bank today, in a package of supposedly valueless papers. There are now believed to be other assets. The bonds were those given by surety companies to guarantee the honesty of employees. They are said to be collectable in the courts.

EARL WILL VISIT CALGARY

Calgary, Sept. 24.—A definite reply has been received from Earl Grey, Governor-General of Canada, accepting the invitation of Calgary to accept a reception by the city of Calgary. The Governor-General and party are expected on October 9.

Expense Rate Unusually Low

being the LOWEST OF ALL Canadian Companies for the year 1905, notwithstanding that the LARGEST VOLUME OF NEW BUSINESS in the history of the Company was written in that year.

Remarkably Favorable Mortality Experience

The losses by death in 1905 were only 49% of the losses that were normally expected to occur. The fine quality of this Company's business is shown by the notable fact that during the past 15 years the death losses AVERAGED ONLY 53% OF THE EXPECTED.

The Rapid Growth of the Company's Income

The income for 1895 was \$735,079, while in 1905—ten years after—it reached the large sum of \$1,956,519. The interest income exceeded the death losses during the same period by \$568,945.

Mr. Broadfoot, of the Home Mission Galician school at Vegreville.

REGARDING INCINERATOR

To the Editor of the Bulletin, Edmonton:

Dear Sir—Will you kindly allow me to correct an error in the paragraph in your yesterday's issue in reference to the above.

There is a radical difference between the system of incineration adopted by my firm, Heenan & Froude, Ltd., of Manchester, and that of the Decarie. Ours is a process of complete combustion at a very high temperature of about two thousand degrees without the aid of extraneous fuel, by means of a hot air forced draught and without causing any noxious smells or nuisance whatever, the residue being in the form of a solid clinker, whereas with the Decarie process the refuse is treated at a comparatively low temperature by a natural draught only and with the aid of fuel.

I am, Sir,
Your obedient servant,
RICH. A. TAUNTON.

SOCIAL AND PERSONAL

Free Press: Lieut.-Governor McMillan intended to go to Edmonton this week to shoot, but other arrangements prevented him from doing so. It is understood, however, that the excursion will be made at a future date.

The Young Bachelors of Edmonton entertain their friends this evening at a dance in the Thistle rink. The patronesses are Mrs. C. H. Hubbell, Mrs. J. Hishop, Mrs. L. C. Charleworth, Mrs. Balmer Watt, and Mrs. T. F. S. Jackson.

BUILDING PERMITS

Permits were taken out in the building inspector's office yesterday totaling \$24,700. The largest was the Driscoll and Smith building, corner Rice and McDougall, and the others were all residences. H. Gruner took out permits for two residences in Block 7, costing \$3,500 and \$3,200. W. H. Allen is building a \$2,200 residence on Syndicate avenue and Walter B. Pullerton is putting up a residence on Sutherland to cost \$1,500. The other permits are for smaller buildings.

WILL CONSIDER RAILWAY AGREEMENT.

A letter was read at the council meeting last night from the deputy minister of railways stating that the minister of railways will consider the agreement between the City of Edmonton and the G.T.P. at his office in Ottawa on October 18th. A motion was carried instructing the city solicitor to employ counsel in Ottawa to represent the city and act on Mr. Beck's advice.

IS LIFE WORTH THE LIVING?

It would be if you had a summer home at WHITE WATERS BEACH. Remember that this property should be the choice of all, as it was the first selection made. It was the first that was surveyed. It was the first that took the eye of experienced judges of such property. See or write us for full particulars.

McINTOSH & CAMPBELL,
P. O. BOX 240
Northwood, B.C.

Why pay \$25.00 to \$35.00 for a suit of clothes, when you can get just as good for \$15.00—No More, No Less. Our tailoring business is one of the largest in the world. No Middlemen. Suits direct from Woolen Mills to Fur-chasers. Call us and see our goods and compare them with other high-priced suits. Scotland Woolen Mills 315 Jasper avenue.
